Preamble

The objective of any programme at Higher Education Institute is to prepare their students for the society at large. The University of Delhi envisions all its programmes in the best interest of their students and in this endeavour it offers a new vision to all its Under-Graduate courses. It imbibes a Learning Outcome-based Curriculum Framework (LOCF) for all its Under Graduate programmes.

The LOCF approach is envisioned to provide a focused, outcome-based syllabus at the undergraduate level with an agenda to structure the teaching-learning experiences in a more student-centric manner. The LOCF approach has been adopted to strengthen students' experiences as they engage themselves in the programme of their choice. The Under-Graduate Programmes will prepare the students for both, academia and employability.

Each programme vividly elaborates its nature and promises the outcomes that are to be accomplished by studying the courses. The programmes also state the attributes that it offers to inculcate at the graduation level. The graduate attributes encompass values related to well-being, emotional stability, critical thinking, social justice and also skills for employability. In short, each programme prepares students for sustainability and life-long learning.

The new curriculum of BA (Hons) Spanish offers courses on skill enhancement through specially designed courses in the area of media studies, business and tourism sectors and the hotel industry. In addition, there are translation and interpretation courses which deal with the techniques and different language registers of each field. To acquaint students with Spanish culture there is even a course on food and social life in Italian.

The University of Delhi hopes the LOCF approach of the programme B.A. (Hons) Spanish will help students in making an informed decision regarding the goals that they wish to pursue in further education and life, at large.

1. Introduction to Programme

The B.A. (Honours) Spanish programme has been designed adopting the Task based and Communicative Approaches that are the latest Foreign Language Teaching methodologies adopted across the world in order to enable learners to attain the language competency levels specified by the internationally accepted Common European Frame of Reference for Languages (CEF), developed by the European Council. Each module aims at imparting specific linguistic skills as well as life skills that would help learners to communicate effectively in real life situations. The curriculum intends to integrate real life communicative situations in the language class rooms with the help of concrete tasks and project based collaborative teaching-learning.
