Ref. No. Tel/339/06/2014/New EPABX/

Dated: 11.08.2014

Circular

A new EPABX system has been installed in the Telephone Exchange of the University by MTNL with substantial capacity. All the extension numbers will remain the same. The extensions can be reached directly from outside by dialing 2700+Extn., making it a direct phone line for all practical purposes without the intervention of the Telephone Operator. The old EPABX numbers 27667725 and 27662882 are also operational.

Unlike the earlier EPABX, in the new system when calling a mobile phone or any phone with caller id from any extension, the EPABX number + extension as indicated above will be seen by the receiver, thus enabling the person to call back to that very extension.

All the Departments/Sections/Units are requested to bring this to the notice of all concerned and to use the number in their letter heads & other communications.
